

## *Fairy Woods*

1

*There is a place deep in the woods  
where fairies used to play,  
walk past the birch and through the field  
where morning glories lay.*

2

*They used to live deep in the woods,  
I know, I've seen the there,  
I've come to look for them once more,  
but I can't find them here.*

3

*They used to hold me hand in hand,  
we ran among the trees,  
we used to lay in fields so green,  
and feel the morning breeze.*

4

*They used to tell me of their life,  
I told them of my own,  
they said just think of all of us,  
and you won't be alone.*

5

*I'm in the woods where I would play,  
but there is no one there,  
perhaps the little child in me,  
thought they'd still be here.*

6

*I was a child, but now no more,  
they just lived in my mind,  
I turned around and walked away,  
a voice I heard behind.*

7

*"We'll always be right here for you,  
just look within your heart,  
the child in you will always be,  
the greatest of your part.*

8

*When you look within yourself,  
your inner child you'll see,  
embrace that child within yourself,  
that's where we'll always be."*
