

Martta Emilia Markus (Granholm) ancestors

My uncle, “Uno farbror” Granholm was quite interested in genealogy and had made a chart of his ancestors, which I got from Nicke and used as a basis for what I later found. These ancestors are the same as from my father and can be seen by clicking on [Anton Granholm ancestors](#). He had determined how we were related to Runeberg and Järnefelts. In particular he wrote in a footnote that we supposedly were related to Mannerheim, although he had not found the link. I was able to find links from common ancestors, see the [Mannerheim](#) and [Sursill Chart](#) links on our homepage. I have also referenced him in the fictitious [“The Granholm North Pole Legend”](#)

The information about Uno’s family roots and other things he wrote was something he wanted to pass on to his children. To add to this information I have here a list of the ancestors of his wife, “Tant Martta” Markus (Granholm) from an Internet link, and some other sources.

Our two families, both parents and children, were closer to each other than with any other relatives, not only because we lived next door to each other, but also in age and in whatever a bunch of wild kids could think up about how to have fun.
